Date: 22 November 2016  
Subject: Notification Of Contractor Approval For British Steel

### British Steel Contractor Approval

This letter confirms the above company have been approved to undertake work on all British Steel sites.

British Steel operates a single UK-wide Contractor Site Approval process that allows contractors to work on all British Steel sites subject to local requirements for a period of 3 years, before re-approval is required.

Please be aware that all Sub Contract companies must also be approved via the same process.

Please contact your local British Steel contract owner for any site-specific requirements.
